

TopSEOs Canada Awards “A+” to 1st On The List for Website Quality Audit Services to Uncover Reasons Why Web Pages Won’t Rank or Get Indexed by the Search Engines

Vancouver, British Columbia– TopSEOs Canada recently announced that 1st on the List Promotion Inc. scored a 99.8% user rating for [Website Quality Audit Services](#) earning this Vancouver based search engine optimization company an A+ and a **#2 position** on TopSEOs list for “**Best Website Audit Company in Canada**”. In response to an increased demand by website owners to better understand why their web pages won’t rank or fail to get indexed in the major search engines like Google, Bing and Yahoo, 1st on the List conducts comprehensive website quality audit services and website ranking analysis as part of their expert search engine optimization services.

Each month, TopSEOs generates a report with a list of the best search engine optimization companies based on user reviews. This recent acknowledgement for 1st on the List can be added to their impressive list of TopSEOs.com awards including ongoing recognition for Best SEO Company Canada, Best Integrated Search Company Canada and Best Pay Per Click Management Company.

“As one of the pioneering firms in the Search Engine Optimization industry we have developed deep capabilities in competitive website analysis and identifying the underlying site design and server configuration issues. Experience has proven that the more issues we can identify and resolve the better the potential the website has to rank well in the search engines,” explains 1st on the List President Chris Genge.

The TopSEO Site Audit ranking consists of a set of criteria that measures the firm’s dependability in terms of reliability and integrity, plus the ability to use systematic methodology in designing a custom plan according to individual client needs. TopSEO’s performance ratings are also based on how efficiently target results are achieved as well as the firm’s ability and willingness to find alternate solutions and quickly resolve any issues that may arise.

Genge adds, *“In the long run, most companies benefit financially by conducting a Website Quality Audit before delving into any type of [Search Engine Optimization Services](#) because the Site Audit gives optimizers a much greater picture of the website’s overall health. Website Quality Audits can uncover simple issues such as duplicate content or orphaned pages, which can be quick to remedy. Or it can uncover major issues such as the server blocking crawlers or the search engine robots excluding either the entire site or some of the site’s key files. A good site audit also provides a sound framework for proceeding with SEO. At the end of the Website Quality Audit the goal is to be confident that the website can be crawled and indexed and has the potential to be properly understood and ranked by the Search Engines. Our experience is that clients feel much more comfortable knowing they are starting off with a healthy, SEO Friendly website.”*
